15.15 Roundtable 1

Mobilizing Private and Public Capital in Innovative Ways for the Social Good

Now is the time to focus on developing new ways to finance social investments. The World Business Angels Investment Forum brings together angel investors, corporate venture executives, fund managers, stock exchange executives and public institutions at the Ethical Governance Summit WBAF 2022 to discuss the increasing need for innovative and effective approaches to solving social and environmental issues.

This panel will focus on new ways of cooperation between governments, NGOs, corporates, and private investors that combine the forces of entrepreneurship, innovation, and capital to improve peoples' lives. Such cooperation leads to increased awareness and can expand the investor base, which in turn fosters more inclusion and more sustainable societies as they develop action plans for impact investment.

16.00 Roundtable 2**Responsible finance and impact Investment: The future of smart finance for social entrepreneurs**

There is an increasing trend in capital markets to use responsible finance to search for – and fund – solutions to many of the pressing social or environmental issues of our time. Corporate ventures also intend to invest up to 10 percent of their private equity investments with private equity fund managers whose investment strategies they expect to generate positive social and environmental outcomes, and who are willing to report on non-financial impact metrics. This trend is important for shaping the future of smart finance in capital markets.

This session will be essentially a think-tank session for the future of responsible smart finance in impact investments.
